

Facilitator Master Class

Facilitator Master Class – 2 days

The Master Class is designed to expand on the Expert Facilitation Training Course. This is a hands-on experiential and active learning experience which will enable you to design a workshop, create a workbook and design and produce a report.

On completion of the Master Class course participants will have:

An understanding of the fundamentals of Workshop design and structure

Capability and confidence to successfully identify, design and run successful workshops:

- Scoping the design and defining the outcomes required
- Establishing the right participants
- The ability to design workbooks with relevant structure, questions and content
- Understand the scientific principles underlying the approach
- Exercised their skills through two relevant Case Studies
- Following through on the actions to ensure completion
- Understand and be equipped via templates to ensure adequate and effective reporting
- Be aware of required logistics both pre and post workshop
- Share experiences and practical approaches to potential issues via a Coaching Clinic with Enzyme Master Facilitators

Deliverables

- Enzyme-trained and accredited staff in Enzyme Master Facilitation to the level that participants are able to prepare effective workshops to address critical issues facing an organisation or group.
