

## Audience Response / OptionFinder Operator

### Audience Response / OptionFinder Operator Training – 2 days

The two day Active Learning course teaches the fundamentals of the OptionFinder® software so the operator / facilitator can set up and conduct electronic voting sessions within workshops and meetings.

#### **On completion of the OptionFinder training course participants will be able to:**

- understand a range of tools within the software and how to set up a vote using the software
- set up and test the OptionFinder hardware (keypads & base station)
- operate the software and amend votes where necessary
- undertake basic troubleshooting
- back up the votes and use the outputs in documentation

#### **Outcomes**

Enzyme-trained OptionFinder Operators who:

- have an understanding of the principles and practice of group voting techniques used to support Enzyme Methodologies
- create electronic voting sessions for workshops and meetings
- can assist and support the facilitator

6 DEEWR staff completed the 2 x 1 day OptionFinder training course which enabled them to conduct electronic voting sessions for a number of teams using the OptionFinder kits they purchased.
