

iMapping

iMapping Training – Half day

This short (half day) course enable participants to develop and iMap from the information generated on Day 1 of an URPI process.

On completion of the iMapping training course participants will:

- Have a basic understanding of Systems Thinking and Mapping and its role in the URPI process
- Have an understanding of the features of the software and how to create an iMap
- Be able to create an iMap, including key building blocks to enable a critical review of the initial iMap created on Day 1 of the URPI
- Be able to transfer the iMap into PowerPoint and produce it as an A3 sheet

Outcomes

Enzyme-trained iMappers who:

- Understand how the iMap fits into the URPI process
- Can create an iMap for use on Day 2 of the URPI process
